DUCHY NURSERY TO RESTORMEL CASTLE

SUNDAY 22 MARCH

Standing in ruins amid beautiful countryside, Restormel is one of the most remarkable castles in Britain. The present circular structure, built in the late 13th century, was a luxurious retreat for its medieval owners and was

twice visited by Edward, the Black Prince. The castle commands fantastic views across the valley of the river Fowey and is a favourite picnic spot – with beautiful spring flowers, and plants all year round.

Today the remains of the castle rooms reveal clues to its past grandeur. Large fireplaces, high windows, and the Great Hall, used for gatherings, give a sense of the once opulent surroundings. One of the castle's highlights is the wall walk around the inside of the keep, where you can imagine castle life bustling below you centuries ago. Climb up the stone staircase from the courtyard and you will be rewarded with stunning views of the surrounding countryside.
